the complete rules again in the Seed Pod but anybody wanting a copy may obtain one by writing to the Executive Secretary. The big change was in deleting the section calling for the American Hibiscus Society General Judge Chairman and Co-Chairman. The doors were closed instead of guarded. Definitions of entry classifications were set up for Amateur & Commercial. There were some other paragraphs added which follow:

Amateur: A person who does something for the pleasure of it - non-professional - a person who does something more or less unskillfully.

Commercial: Of or connected with commerce - made or done primarily for sale or profit.

Any person who holds a certificate of inspection to sell by the State Department of Agriculture shall be required to exhibit as a Commercial exhibitor.
